=====

Number Card - Face value (0 - 9)

Draw Two cards - 20 Points

Reverse Cards - 20 Points

Skip Cards - 20 Points

Wild Cards - 50 Points

Wild Draw 4 Cards - 50 Points

Golden Rules to play Uno:

- 1. Use a deck of UNO cards.** The standard *UNO* deck has 108 cards consisting of: four colored "suits" (Blue, Green, Red, and Yellow), Action cards (Draw 2, Reverse, and Skip), Wild cards, and Wild Draw Four cards.
- 2. Choose a dealer by having each player pick one card.** The person with the highest number is the dealer. In this instance, Action cards (including *Wild* and *Wild Draw Four* cards) have a value of zero.
- 3. Deal each player seven cards and place the remaining cards face down in the middle of the table.** This pile of cards in the middle is known as the draw pile.
- 4. Turn over the top card of the draw pile and place this card next to the draw pile to form the discard pile.**
- 5. Take turns beginning with the player to the dealer's left and go clockwise around the table.**
- 6. Place one of your cards on the discard pile when it's your turn.** Your card must have the same number, color or wording as the top card of the discard pile... unless you have a Wild card, in which case you can choose which color cards will be played.
- 7. Draw a card if you cannot discard.** Play the drawn card if you can. If you can't, it's the next person's turn.
- 8. Announce a suit when you place a wild card on the discard pile.** You can play a Wild card any time it's your turn and can name any suit you wish.
- 9. Announce a suit when you place a Wild Draw Four card on the discard pile.**
- 10. When you play a Wild Draw Four card, the next player to act must pick up four cards from the draw pile.**
- 11. Follow the directions of an Action card that is played on the discard pile by the player preceding you.** This may mean that you have to draw two cards, skip a turn or even draw four cards.
- 12. Remember to Say "UNO" when you have one card left in your hand.** If you forget to say UNO and another player catches you, you must draw two cards.
- 13. Tally each player's scores at the end of each game.** The game is over when one player is completely out of cards. That person gets all the points.
- 14. Here's how to score in UNO:**
 - Add the total of all the cards left in each player's hand.
 - Count number cards (0-9) as their numeric value.
 - Count Draw Two, Skip, and Reverse cards as 20 points.
 - Count Wild and Wild Draw Four cards as 50 points.
 - Award all points to the winner of each round.
- 15. Repeat the game until one player scores 500 points.**
